

# MLSP

GO FURTHER. RELATIONSHIP WITH US

**MLSP Provides Optimal Logistics Solutions  
to meet Customer Needs**

**MLSP**

“GO FURTHER RELATIONSHIP WITH US”

# Company Information

Logistics means cheaper, safer, and faster transportation of goods entrusted by customers to domestic and international destinations.

In order to faithfully carry out this basic task, Many parts are required, such as "Securing Optimal Rate", "Detailed Operation", "Selection of appropriate transportation Service, and "Irregular Response", And these cannot be accomplished overnight.

#### **MLSP is devoted to the fundamentals of logistics.**

We can provide the best service for each region and transportation mode by concentrating the work capabilities of each experienced employee around the world.

#### **MLSP value communication with our customers.**

Under the slogan "**GO FURTHER. RELATIONSHIP WITH US**", We faithfully carry out our client's needs, And make suggestions that are helpful to our clients. We aspire to grow together with our clients mutually

#### **MLSP pursue "ESG Management".**

We support the "commitment of limit global temperature rise by 1.5°" by the international community, especially in the field of environment. We have specialized services for rail transportation, which emits less carbon dioxide than ships and aircraft, and are expanding the transportation of "Wind Power Generation Facilities" & "EV Battery" parts for renewable energy production.

We will do our best to give you the most satisfaction service beyond your expectation

04

PROJECT  
BULK  
RORO

# Industries

## Aerospace

- Experience of cargo handling for Aerospace Industry  
- pre-checking Customs rule and feasibility of clearing customs.

## Automotive

- ICEV, EV automotive parts
- Battery recycling material (Tray, BP, BM, etc)

## Consumer

- Cost-effective and efficient logistics solution for SCM
- VMI service at KR base port

## Electronics

- Various Electronics and parts of it
- Import & Export from/to worldwide

## Fashion & Retail

- Customer-oriented 패션 산업에 맞춘 고품질 서비스 제공
- General fabric roll, and fabric roll of Military garment, etc  
- pre-checking Customs rule and feasibility of clearing customs.

## Healthcare

- Experience of transportation of Temperature controlled Pharmaceutical cargo  
- covering the whole transportation under temp' control

## Wind Power

- Wind Power parts of Bearing, Tower, Motor, Flange, etc
- Export & Cross trading from/to Denmark, USA, Spain, Germany, Vietnam and Cross trading)
- Wind Turbin Blade & Hub, Nacelle (Target)

## Semicon/Solar

- Parts of Solar panel and Renewable Energy industry (Target)

# Eco-friendly Trade

## Expansion of transportation services for "Products of Renewable Energy Production"

### Transportation of "Wind-Tower Parts" for Wind-Power Generators

- Top quality [slewing bearings](#)
- [Stable support](#) for the load of large machines
- [Transportation expertise](#) for wind power

### Transportation of "Parts of Electrical Cars" (Secondary Batteries)

- [Minimize Air Pollution](#) through emission reduction
- Transportation of Products relating to [Improving The Environment](#)
- Secondary Batteries [Charging Solutions](#)

### Expansion of transportation to "Solar / Hydrogen Energy Production Facility Parts"

- [Advance "solar system and service field"](#)
- [Expand supply](#) of solar cell parts
- [Stabilization check](#) for continuous development

Low-carbon, Eco-friendly Transportation

### Strengths of Rail Transport

TRUCK

SEA

AIR

**Rail Transportation**

- Eco-friendly
- Railways with high energy efficiency
- CO2 emissions reduction
- Suitable Transportation for the era of environmental pollution

Efforts to lower carbon emissions to prevent Earth's average temperature from rising

Expansion of transportation of parts or solutions for **"Eco-Friendly products"** or **Renewable Energy Production** (Carbon Emission Reduction/ CO2 Reduction)

Participate in a campaign to reduce CO2 emissions with MLSP's overseas partners located around the world
